

# First Lady's Project

**Becky and I have a dream to remodel the Corkey's Cupboard into an old fashion ice cream parlor and create a new area for Corkey's Cupboard and also include a wall similar to an old-time Post Office for the residents. The gift shop is ready for remodeling and would complete the total package.**

**The renovation will give the residents a reflection of the past and let them enjoy a delicious treat during that special time of the day. The goal is to create a neighborhood feel where the residents can gather and enjoy each other's company.**

**We ask for your help in making this dream a reality for the residents.**
